

We're hard at work upgrading the Wheel of Mashup for two upcoming shows:

- [The Outback Music Festival](#) (Oct. 3, 4, & 5) at [Summer Lake Hot Springs](#) near Bend, Oregon ("near" is actually over an hour away). The ECC performs Saturday night (Oct 4) at midnight.
- [Heat the Street Faire, aka Burning Man Decompression](#) (Oct. 12) in San Francisco. Still awaiting performance time and details.

The Wheel Of Mashup is expanding -- now there's EIGHT choices of music to land on, and EIGHT choices of vocals on the other wheel -- that's 64 different mashups possible! We're also going to debut a very cool rear-projected kinda touch-screen controller thingee done with a video projector and a Wii controller. Very sexy tech here.
